

THE LATEST CURE FOR AIDS COMES FROM OLIVE TREES!

The Wild Olive we call Olienhout (Olea Europaea) in South Africa produces leaves that are very rich in the active ingredients called oleuropein and that make this Olive Tree one of Nature's most remarkable medicine chests: a cure for AIDS and just about everything else!

The chemicals oleuropein, oleacein, elenolic acid and epielenolic acid are highly concentrated in olive leaves. In combination with enzymes and trace minerals present in the leaves they produce a potent anti- microbial effect whilst increasing blood circulation and lowering blood pressure. The flow of blood to the brain as well as hands and feet is also stimulated. Calcium and Magnesium supplements can be taken with an olive leaf remedy to reduce any discomfort whilst toxins and pathogens are being excreted. (known as the Herxheimer or die-off reaction) Oleuropein helps to relieve cramps and the anti-oxidant activity strengthens the immune system and prevents oxidative damage. The effective treatment of all types of viral diseases, including Epstein-Barr virus, cytomegalo-virus, herpes virus, retroviruses, colds, flu and HIV viruses have been reported. It is effective against most bacterial infections: even Staphylococcus Aureus and lethal forms of protozoa and other parasites: including Malaria and Cholera. European research indicates the lowering of blood sugar and the enhancement of insulin sensitivity for diabetics whilst improving their impaired blood circulation. Arthritic and inflammatory conditions can heal and fungal infections like Candida Albicans have cleared up. Most patients reported an overall tonic effect and a greater sense of wellbeing both physically and emotionally.

100 g of dried olive leaves will yield 200x 500mg doses of olive leaf powder. Leaves can be ground up and divided into doses of powder that can be added to: juice, tea, or molasses. The leaves are non toxic with no dangerous or adverse side effects.

NATURE FRESH

HERBAL TOOTHPASTE

with **TEA TREE oil**

100ml **NON TOXIC NO FLUORIDE**

ADDITIONAL INFORMATION, JUST FOR YOUR INTEREST

OLIVE LEAF EXTRACT: RESEARCH UNDERTAKEN DURING 1995.

These results were obtained from patients taking 2 -6 x 500mg capsules daily or drinking olive leaf tea, juice, or by taking leaf powder with food. From the book: Olive Leaf Extract by Dr Morton Walker.

- Destruction of pathological microorganisms of all types- viruses, retroviruses (AIDS), bacteria, spirochetes, rickettsiae, chlamydiae, fungi, yeasts, molds, protozoa, helminths and other parasites. A lower daily maintenance dose prevented their return.

- The relief of arthritic inflammations, especially osteoarthritis and rheumatoid arthritis.
- The reduction of insulin dosages for better control of diabetes.
- The elimination of chronic fatigue and associated symptoms.
- The creation or restoration of abundant energy with prolonged stamina.
- The normalisation of heart beat irregularities (arrhythmias)
- The improvement of blood flow in cardiovascular and/or peripheral vascular disorders.
- The lowering of blood pressure.
- An increase in concentration and the alleviation of cold hands and feet.
- The lessening of pain from piles or haemorrhoids
- The attenuation of toothache and gum disease (based on bacterial infections and abscesses)
- The antioxidant quenching of free radical pathology.
- The obliteration of fungal infections such as mycotic nails, athlete's foot and genital itching.
- The permanent relief of malaria(from a protozoa), dengue fever (from a virus) and other exotic and deadly tropical diseases which produce fever as a primary symptom.
- The prevention and effective treatment of all types of viral diseases, including Epstein-Barr virus, cytomegalo-virus, herpes virus, retroviruses, colds, flu and HIV.
- The reversal of almost all symptomatology involving Candida albicans or the yeast syndrome.
- The death and excretion of a variety of a variety of parasites, including microscopic protozoa and macroscopic helminth worms: tapeworm, roundworm, hookworm and pinworms.
- Improved renal function as it has a significant diuretic effect.
- Alleviation of sore throats when a olive leaf tea or the green juice is gargled.
- An overall tonic effect and a greater sense of wellbeing both physically and emotionally.

100 g of dried olive leaves will yield 200x 500mg doses of olive leaf powder. Leaves can be ground up and divided into doses of powder and added to: juice, tea, molasses or food. You can buy an olive tree and make your own juice or tea or you can obtain OLIVE LEAF CAPSULES, powder or tea from a health shop or order them from specialist suppliers.
