

NF 049 DEO-BUSTER - 100ml jar Pack height: 55ml **NEW SIZE 20% FREE!**

Aluminium free, no perfume, colourants, parabens or invasive chemicals. Zinc Ricinoleate is a castor oil bean extract that naturally traps air-bourne bacteria to prevent odours. Other natural active ingredients include: colloidal silver, selenium, white iodine, calendula and witch hazel. Great for armpits, groin areas that chafe, for stinky feet or infected toenails. Helps to boost iodine levels to disinfect odour-causing bacteria on the skin. People with iodine and selenium deficiencies are more prone to breast cancer and fibrocystic breast disease. The cream does not leave white marks on black clothing or yellow stains on white clothing! After using it daily for a while you need only apply it every second day as the odour busting effect increases with regular use.

Anti-cancer: Iodine binds to anti proliferative iodo-lipids (fat+iodine) to control cancer. This does not happen if we are iodine deficient, so we get cancer. Anti-perspirants block the lymphatic drainage under the armpits close to breast tissue. Cysts develop around the trapped toxins and cells begin to proliferate and this can lead to cancer if one is iodine deficient, especially when there is a deficiency of beneficial gut flora. When a biofilm develops around this microbial bundle of mischief it escapes the vigilance of the immune system. If a breast that contains such a biofilm is exposed to radiation (mammograms or X rays) then strands of DNA are damaged. The estrogen present in fat cells sets off cell proliferation to repair it. If iodine can't be there to control the cell dividing messengers then we get more of those "lumps".

Iodine also kills odour forming bacteria and helps to prevent cancer. It is absorbed through the skin and helps to top up our iodine reserves at the same time.

NEW!
100 ml

Natural anti-microbial agents, especially iodine can help to control bacterial, fungal or mould activity that cause odour, skin irritations and infected rashes. It doesn't inhibit your natural detoxification/perspiration via sweat glands.

APPLICATION: Suitable for underarm, feet, groin, and skin folds. Also for finger- and toenail lesions. Apply to underarm, breast tissue and over throat (thyroid) areas to improve iodine absorption.

GENTLE deodorant cream

With natural iodine, colloidal silver, zinc ricinoleate, selenium and herbs

Iodine sensitivity: first test the cream on your forearm for 20 minutes in case a rash appears.

INGREDIENTS: Water, 10% colloidal silver, selenium, potassium iodide, witch hazel, calendula, vegetable glycerine, citric acid, zinc ricinoleate (from castor oil) phenoxyethanol, polysorbate 60, stearic acid, isopropyl palmitate, sodium hydroxide, ethylhexylglycerin, sorbitan stearate.
