**NF 002 HERBAL TOOTH POLISH 100ml tube** pack height 14 cm  
 For gently removing stains on teeth from food, coffee, etc. Contains Tea Tree Oil, mint, zinc, baking soda, diatomaceous earth, xylitol, stevia and vitamin C. No bleach or peroxides.  
 The first thing you will notice when using neutral toothpaste with a pH of 7 is the way your teeth feel – smooth!. Healthy saliva is your best oral hygienist! Diatomaceous earth is a gentle abrasive that helps to control tobacco, wine and food stains that accumulate on teeth.

All our Oral Hygiene Products are non-toxic, FLUORIDE FREE and safe to swallow albeit unintentionally. <http://naturefresh.co.za/how-safe-is-fluoride/> . Using a fluoride free mouth wash also helps to keep teeth and gums healthy <http://naturefresh.co.za/products/nf-040-breath-buster-anti-microbial-mouthwash-200ml/>

Tea Tree oil and zinc are natural disinfectants and peppermint oil freshens the breath. Aniseed oil keeps the mouth moist and promotes a healthy flow of saliva that can be maintained at a normal pH as the toothpaste is kept to a neutral pH of 7. Natural cellulose and glycerine are used for emulsifying. Changes to our oral hygiene and intimate products are: NO PARABENS, NO SLES/SLS, NO COLOURING, NO SACCHARINE We only use xylitol and stevia in oral hygiene products.

Brush teeth after breakfast and at bedtime. The product is not harmful if accidentally swallowed, but try to encourage kids to rinse out their mouth after brushing teeth.

Although xylitol is beneficial for tooth and gum care it is harmful to cats and dogs and other animals. We suggest they use our Aloe & Propolis toothpaste for sensitive teeth.

**HAPPY TEETH and GUMS**
