

NF 013 PERSONAL LUBRICANT TEA TREE - 100ml bottle pack height 11cm

A water based pH balanced lubricant that helps treat microbial infections, candidiasis and irritation or odour problems. Apply to tampons and insert for treatment. Use for swabbing intimate areas during menstruation or when unable to wash. Also for wounds or post-surgical swabbing. Works best when used with Nature Fresh Intimate cleansers and body washes as they are pH 3.5 – pH 4.5, compatible with vaginal mucosa. Avoid using regular alkaline bars of soap or shower gels. Product can be combined with other skincare products as required. Bee Balm especially is helpful for open lesions and very tender rashes.

NATURE FRESH
non-greasy water based
INTIMATE
personal lubricant
with Tea Tree Oil for all-day freshness

A gentle gel for minor genital discomforts such as dryness, itching or burning. It can be used directly on inner and outer vaginal areas or on skin rashes. This formulation is pH compatible (pH 3.5) with inner mucous surfaces. Tea Tree Oil is a traditional anti-microbial remedy used for thrush, odour problems, and infections.

DIRECTIONS: Apply to affected areas every day. For personal cleansing or for post-surgical swabbing spread gel onto cotton wool. Use for inserting tampons and before having sexual intercourse.

This product is non-greasy and safe to use with condoms. For best results use pH compatible INTIMATE CLEANSERS instead of alkaline soaps and gels.
